

Kandao Meeting

360° All-in-one Conferencing Camera

Make Remote Meeting Smarter

Kandao 360° all-in-one conferencing camera gives you a true face-to-face meeting experience by delivering 1080P HD video with crystal clear audio. Combining a 360° camera, 8 omnidirectional microphones and 2 full duplex speakerphones in an affordable package, Kandao 360° video conference camera offers the feature of auto-focus that is unique at this price point. Plug and play and compatible with various video conferencing platforms, it offers a simple to use, high quality audio and video solution for a remote meeting of any size.

KEY BENEFITS

- **All-in-one Design:** 360° Camera + Omni-directional mics + Full-duplex Speakerphones
- **8K Capturing & 1080P Streaming:** With customized Ultra-HD fisheye lenses, Kandao 360° conference camera gives you a wide field of view and ensures you to see more clearly in the group video. It captures panoramic video at 8K resolution and delivers 1080p video at a frame rate of 25 frames per second. The wide-angle HD video ensures everyone is visible and engaged.
- **Omni-directional Audio System:** Kandao 360° conference room camera delivers crystal clear audio with 8 integrated omni-directional mics. They pick up sounds in every direction, even far away than 13 feet. The two full-duplex speakerphones also minimize noise and echo, allowing you to easily see everyone's gestures and clearly hear what they say with the integrated audio system.
- **Intelligent Tracking & Auto-focus:** Powered by cutting-edge AI technology, Kandao Meeting's video conferencing systems automatically focuses on the active speaker. When there are different active speakers engaged, it will split the screen with a 360° wide angle view displayed on top and close-up shot of active speakers below. It can also dynamically recognize and follow whomever is speaking with smooth panning in "Presentation" mode.
- **Link to Video Conference Platforms:** No matter whether you are remote workers or mobile employees, Kandao 360° conference webcam enables all remote participants to have an inclusive face-to-face meeting experience, working perfectly with any video and audio conferencing platform. Zoom, Tencent Meeting, GotoMeeting, Skype, Teams, BlueJeans, DingTalk, Slack, Polycom, StarLeaf, Google Meet, Cisco Webex, and more.
- **Plug & Play Easy:** With Kandao Meeting 360° conferencing systems, meeting can take place anywhere, anytime. No extra software required. Just simply plug and play the power into a USB port, and turn any size of conference room into a video meeting space in minutes. No matter huddle rooms for small meeting, or mid-sized conference rooms, Kandao Meeting is your best video conference camera.
- **As if You Were in the Same Room:** Kandao 360° conference cams with built in microphone and 360 camera provide more than a conference call. It encourages a smarter and more intuitive meeting experience for group conferencing, to let remote workers communicate as if they were in the same room with the team, talking face to face.
- **Light/Color Optimization:** Based on the lighting conditions of the room, Kandao Meeting conference

room cameras dynamically optimize exposure and fine-tune skin tones, so you can look great in video conference of any light.

- **Privacy Guarantee:** Featuring a hidden pop-up camera, Kandao 360° video conferencing camera perfectly protects your privacy. Press down to hide the camera, only appearing when needed.

KANDAO MEETING IS EASY TO SETUP

1. Plug in power. Connect USB-A to a computer or laptop.

2. Choose a conferencing software to run.
